## Plants vs. Zombies

- ➤ Follow this link and remix the project:
  <a href="https://scratch.mit.edu/projects/126981912/#editor">https://scratch.mit.edu/projects/126981912/#editor</a>
- ➤ BIG SECRET: Ask a mentor about using Alt-tab (or command-tab) to switch quickly between screens.
- ➤ The "cow" script:

```
when clicked

set size to 50 %

forever

if key right arrow pressed? then

turn (* 15 degrees

if key left arrow pressed? then

turn (*) 15 degrees
```

## Plants vs. Zombies

## > The "zombie" script:

```
when I start as a clone
switch costume to zombie 

go to x: 240 y: pick random 120 to 100

forever

wait 1 secs

forever

change x by 1

if x position < 220 then

delete this clone

if touching cow 2 then

switch costume to splat

wait 1 secs

delete this clone
```

## ➤ Project ideas:

- $\circ\quad$  Use the Stage to make a cool background.
- o Try different cow speeds.
- Try different zombie speeds and frequenies.
- Make a different type of zombie that the cow has to avoid.
- > Ask for help if you need it.
